

In the late afternoon we will drive to our campsite outside the park for dinner and a good night's sleep.

Day 5: We will drive to Tarangire National Park just after breakfast. Tarangire's signature attractions are elephants and baobabs - hugely impressive trees that can live for several thousand years, providing wonderful silhouettes for sunset photos and selfies. In the late afternoon we will drive to Arusha and drop you at your hotel - having a once in a lifetime experience in your luggage.

Please note that the program is flexible and can be tailor-made on your request.

If you want to start in Arusha and end in Arusha - it's also possible. Just drop us an e-mail with your suggestions and we will make a personal program for you.

** Please notice, that there can be small changes in the on safari due to this program - if some of the campsites are fully booked.*
